

CONTRACT NUMBER TIRNO-00-D-000XX
PART III – LIST OF DOCUMENTS, EXHIBITS, AND OTHER ATTACHMENTS
SECTION J – LIST OF ATTACHMENTS

**J.2 SOFTWARE DEVELOPMENT STANDARDS, LIFE CYCLE (SDLC)
GUIDELINES**

The following list of documents provide a description of the standards for Software Development, and the Enterprise Life Cycle (ELC) Guidelines currently used by the IRS and is provided as a reference tool. They are approved for use by Contractor support personnel that are involved with IRS software development efforts. Each component in a proposed design must trace to the corresponding elements in the IRS Enterprise Architecture and any proposed solution must be compatible with the IRS infrastructure.

Initiation

IRM Part 2 (Information Technology) (01/02)
Enterprise Architecture - Version 2.0 (04/02)

Analysis, Design, Coding & Documentation

Enterprise Architecture – Standards Profile, Version 2.0 (03/02)
Enterprise Architecture – Enterprise Conventions, Version 2.0 (03/02)
Enterprise Architecture – Data Standards and Guidelines, Version 2.0 (03/02) **

Testing and Software Quality Assurance

Enterprise Life Cycle – Quality Assurance (QA) Handbook (03/02)

** In development
